for Research & Innovation

## Cities request

**Have a tool to share ideas, questions, solutions between all the cities**

- ▶ Bring the questions from the municipalities to the right people/experts of other municipalities (these people do not always attend the workshops)
- ▶ Post ideas to inspire other municipalities
- ▶ Address actual questions and the right way to share them in the physical meetings

Document  [Hong Kong Biodiversity Questionnaire 2019-10-08 1663.Doc](#)

This survey was designed by Hong Kong University with the aim to study the possible impacts caused by the ecological enhancement works in river channels. The Hong Kong Government aims with these works to enhance the physical environment and ecological connectivity to facilitate the colonisation of aquatic flora and fauna. The questionnaire is meant to collect the public's comments and opinions on the environmental issues as well as the possible social impacts brought by the project. Here you can find the survey related to the lower Lam Tsuen Rivers section, as it was presented to the citizens of Hong Kong.

## Buddy Space Forum?

It was a section of the Buddy Space website page, but it has never been really used

It was decided to restore it and use it as a tool to share knowledge
